STAT

Dear MR. Knoche:

I want to add, in writing, again my personal thanks for your contribution to our District Rotary Conference. I wish every Rotary Club in America could get the message that you gave us in such clear and understandable language. It is certainly most comforting to feel that we have such dedicated and true Americans as yourself to keep watch in our behalf.

It was my personal pleasure to meet, in person, both you and Mrs. Knoche who have been such long and valued customers of our firm. We appreciate having such pleasant customers to work with and we appreciate even more, having you supervise such an important part of our government in this confused age of world affairs.

With kindest personal regards to both you and Mrs. Knoche, I am

Sincerely,
